About us

Welcome to the World of Alpha uPVC and Aluminium Windows & Doors

Alpha Windows, established in 2015, is one of the leading manufacturers and suppliers of high-quality, stylish, and durable doors and windows. We operate with the core principle that "Quality is Above All." While many manufacturers exist in the market, we stand apart by consistently focusing on our goal: "To provide the best quality products" to ensure maximum customer satisfaction. Our business model is designed to keep our customers happy and satisfied for the long term by offering highly durable doors and windows, including uPVC and aluminium options. Our commitment extends beyond just selling and installing products — we provide exceptional after-sales service to maintain customer satisfaction over time.

Company Profile:

Established in 2015, Alpha Windows has maintained its position at the forefront of the industry, thanks to our unwavering commitment to quality and innovation. Our highly experienced and knowledgeable craftsmen, combined with a wide range of top-quality uPVC and aluminium doors and windows, enable us to meet and exceed customer expectations.

A company's reputation is built on the quality of its products, and at Alpha Windows, we pride ourselves on manufacturing high-quality, durable doors and windows that ensure long-lasting satisfaction. We believe that "quality is never an accident" — it is always the result of intelligent effort, dedication, and continuous improvement by our skilled craftsmen and engineers. To maintain these high standards, we use only premium-grade raw materials to manufacture our diverse range of uPVC and aluminium doors and windows. Our focus on delivering exceptional quality ensures that we not only meet but exceed the expectations of our existing and future customers.

Alu Alpha Windows

Building on the legacy of excellence established by Alpha Windows since 2015, we are proud to introduce our new child company, Alu Alpha, launched this year to specialize exclusively in high-quality aluminium windows and doors. With the same commitment to quality and innovation, Alu Alpha aims to provide top-tier solutions tailored to meet the evolving needs of modern architecture. Our expert craftsmen and advanced technology ensure that every product maintains the superior standards our customers have come to expect.

About Founder & CEO

Ramesh Kumar Thapa

Ramesh Kumar Thapa, the **Founder and CEO** of Alpha Windows, a leading manufacturer of uPVC doors and windows. With over 15 years of extensive experience in the industry, I have built Alpha Windows with a strong focus on quality, innovation, and customer satisfaction.

We offer a complete range of premium doors and windows solutions at highly competitive prices, catering to a diverse clientele, including architects, builders, civil contractors, interior designers, homeowners, and individual clients. Our services extend beyond manufacturing, as we also provide reliable maintenance and support to ensure long-term performance and customer satisfaction.

At Alpha Windows, we are committed to delivering excellence and exceeding customer expectations through superior craftsmanship and exceptional service.

Once again, I am Ramesh Kumar Thapa, proudly representing Alpha Windows.

Advantages of uPVC windows

Weather Proff

We use best quality raw material to make doors and Windows so that our product proves good weather resistance to our customer.

RESISTANCE OF U.V. RAYS

our product durability it does not allowed U.V. rays to enter inside, so from the point of view of your skin our doors and Windows proved Best since ages.

Fungi's or Termite Free.

Doors and Windows crafted at Alpha Windows is of best quality and does not allow insect or any other terminator to enter in to the interior part.

Strength & Durability

As our doors has durability so it's almost impossible for invader to invade. Our doors and Windows are crafted in such a way so they can face all kind of weather changes.

Thermal Insulation

Our Windows and doors are packed airtight so it does not allowed any micro element to enter in to interior part of the room.

Acoustic Insulator

When it comes to your privacy we care more to make our doors and Windows in such a ways to ensure that there is no gap to facilitate noise and dust to enter.

Low Maintenance cost or maintenance Free.

Our Windows and doors are of quality so that there is no need of regular maintenance however periodically maintenance is required which u can get at very low cost.

High Security Multi-Point Locking System

Security is main concern for all of us so we provide to our customer with multilevel technical , non technical locking system to ensure highly secure environment.

Fire Resistant

Our product lucrative is their unique quality of fire resistance , as we make PVC-U Windows & doors which are in turn fire resistance and does not allow fire breakout .

Eco Friendly

From the point of view of the environment our doors and Windows are highly eco friendly as we at Alpha Windows use best quality substitute of wood.

Advantage Of Aluminium Windows

Durability:

Aluminium windows are highly durable and resistant to the elements. They are less likely to warp, crack, or swell over time, making them a long-lasting choice.

Low Maintenance:

Aluminium frames are easy to maintain as they don't require regular painting or sealing. Simply cleaning with soap and water keeps them looking great

Strength:

Aluminium frames are easy to maintain as they don't require regular painting or sealing. Simply cleaning with soap and water keeps them looking great

Energy Efficiency:

Modern aluminium windows come with thermal breaks that improve their energy efficiency. They help to maintain indoor temperatures, reducing heating and cooling costs.

Sleek Design:

Aluminium windows offer a contemporary, sleek, and minimalist appearance, with narrow frames that maximize the view. This makes them a popular choice for modern architectural styles.

Corrosion Resistance:
